There was no formal meeting of the CAG on June 20, 2013. Tim Drexler of USEPA presented a history of the OMC Plant 2 cleanup at the Waukegan Yacht Club on the harbor in Waukegan, Illinois. The presentation included the history of the site, multiple cleanups conducted plus the ongoing Waukegan Harbor Final PCB dredge project, treatment system and consolidation facility. A tour was started after a light supper at the OMC Plant 2 site, Triax building. The water treatment system for the harbor dredge water was toured as well as the consolidation facility. Please the slides as well as the notice for this tour to see the pictures of the site and projects.

The Chair welcomed those in attendance and asked everyone to identify themselves and any group that they represent.
